

# HPE Compute **Customer Experience** Workshop featuring HPE OneView and VMware Integration for HPE Rack Servers

## WORKSHOP DETAILS

This full-day VILT hands-on workshop has been created for HPE customers' technical staff. It follows a pre-defined Agenda and is delivered by an experienced HPE Master ASE certified trainer. It is designed to prove specific HPE Compute capabilities and their associated values for customers. By integrating with the HPE OneView API, HPE Composable Ecosystem Partners can provide solutions that let our customers reduce the time spent on managing their environments and accelerate time to value. By providing interoperability with a single API, Partners can support customer requirements for both traditional IT workloads as well as applications demanding the agility of the cloud.

## HPE Ecosystem Partner: HPE Compute Customer Experience Workshop, featuring HPE OneView and VMware Integration for Rack Servers

Learn how to create an enterprise-ready private cloud solution, combining the value of VMware Cloud Foundation (VCF) and HPE ProLiant. Experience hands on labs with HPE OneView solution and a demonstration of the VCF solution. VCF delivers a unified software-defined data center (SDDC) platform integrating VMware vSphere, vSAN, and NSX networking. HPE ProLiant combined with VCF delivers a simplified and more secure private cloud, one that is flexible, easy to deploy, seamless to manage, and simple to operate.

## AGENDA

### 09:00 Welcome and Introductions

Workshop Objectives and Lab Access Instructions

Creating Infrastructure as Code

- Lab: 1 Configuring HPE OneView with user interface and PowerShell
- Managing HPE Compute and Storage Infrastructure with HPE OneView
- Lab 2 – Customising the Infrastructure
- Server provisioning
- Lab 3 – Creating Server Profiles using UI and PowerShell

### 12:00 Lunch

### 13:00 Server Profile Lifecycle Management

- Lab 4 – Server Profile Management

Securing HPE OneView

- Lab 5 – Creating Users and Scopes

Introducing VMware Cloud Foundation (VCF) on HPE ProLiant with HPE OneView integration

- Demo 1 – VCF and HPE OneView Integration

HPE OneView Lifecycle Management

- Lab 6 – Firmware management, reports, activities and HPE OneView Global Dashboard

### 16:00 Workshop Closes

## HOW TO REGISTER YOUR INTEREST

Due to the popularity of these sessions a maximum of 3 places from each customer will be allocated. There is an approval process in place to ensure a fair allocation of spaces. Registering your interest does not guarantee a place on the course, and your application will need to be approved by HPE. Please register your interest [here](#).
