

Aruba Accelerate '24

Course Name: Aruba Advanced Network Security Troubleshooting and Solutions, Rev. 22.41

Certification: Aruba Certified Expert – Network Security (ACX-NS)

Date: 9th – 13th December 2024, 09:00 – 17:00 (UK Time)

Course Code: 0001197760

Exams: HPE6-A84 (Written Exam) and HPE4-A50 (Practical Exam) (Voucher not included)

Course Details: The Aruba Advanced Network Security Troubleshooting and Solutions course helps learners to prepare for Aruba Certified Network Security Expert certification exams. This course covers advanced ways of using Aruba solutions to enforce Zero Trust Security. With a heavy emphasis on scenario-based lab activities, the course covers topics such as designing and implementing role-based access controls, integrating Aruba solutions with third-party products, and detecting and mitigating threats.

Ideal Candidate for this Course: A senior network engineer responsible for implementing and troubleshooting security controls on enterprise networks. Candidate can discuss the network security stack in depth with customers (firewall, proxy, remote access, IDS/IPS, access control, NTA, UEBA).

Mandatory Requirement: All attendees must have a valid HPE Learner ID to join the course.

Course Objectives:

After you successfully complete this course, expect to be able to:

- Design and Implement certificate-based authentication, role-based access controls, and Dynamic Segmentation for a variety of customer requirements, including specialised ones.
- Deploy a comprehensive solution that fits customers' specific network security needs.
- Use Aruba solutions and Aruba integrations to protect customers against threats.

Places on this course are limited and are available to new candidates only. If you have previously taken this course or hold the associated certification you will not be eligible for this training. There is a nominations process in place to ensure a fair allocation of spaces. Registering your interest does not guarantee a place on the course, and your application will need to be approved by Aruba. Please register your interest [here](#).
