

# Network Management with HPE Aruba Networking Central, Rev. 25.41

## Course description

This 2-day course is designed to equip you with the skills and knowledge needed to manage modern network infrastructures using HPE Aruba Networking Central, a cloud-based networking solution. In this course, you will explore key concepts such as network configuration hierarchy, setting up and managing floor plans for WLAN network planning, radio frequency environment monitoring, network monitoring, troubleshooting, and more. Through hands-on labs and interactive demonstrations, you will learn to implement best practices, efficiently manage network configurations, and ensure seamless connectivity across enterprise environments.

Whether you are an IT professional or just starting out, this course is the perfect stepping stone to mastering all things HPE Aruba Networking Central.
